💼 EXPERIENCE

Fullstack Developer   9/10/2023 - Actually

hallgraph

Lead the development modern websites in collaboration with a top-notch design team. I use cutting-edge technologies such as Next.js as the main framework, Tailwind CSS for optimal design, Sanity as a CMS, and MongoDB as the database hosted on MongoDB Atlas. For hosting, I rely on Vercel.

.

Frontend developer   4/1/2023 - 10/7/2023

Samyca

development of a KYC (Know Your Customer) platform utilizing blockchain technology. Created an intuitive form with a focus on user experience and data integrity, integrated advanced validation using the Regula API for enhanced security and efficiency. Utilized Next.js and Chakra UI for agile frontend development, collaborating effectively within a team to achieve exceptional results and project milestones.

Frontend developer   3/11/2022 - 1/1/2024

Hive Short

Led the development of a video streaming platform with Blockchain API integration for scalability and security. Utilized Next.js, CSS Modules for seamless user experience, and integrated video streaming processing for smooth playback and high engagement. Strengthened authenticity and trust with decentralized Blockchain API integration.

Fullstack developer   2/1/2022 - Actually

Freelance

 I've completed diverse projects collaborating with professionals to create scalable applications. Specializing in responsive landing pages using Next.js, React, react-hook-form, zod, zustand, Tailwind CSS, and Chakra UI. Also experienced in developing mobile apps with React Native.

</> ABOUT ME

I'm a passionate frontend programmer specializing in web and mobile app development. With expertise in technologies like React.js, Next.js, and React Native, I create high-quality applications that provide exceptional user experiences. I stay up-to-date with the latest development practices and tools to ensure efficiency, scalability, and optimal performance. I'm also skilled at collaborating with multidisciplinary teams and effectively communicating with designers, backend developers, and stakeholders. Complex challenges fuel my creativity, and I love finding innovative solutions.
